# OpenSesame **Exclusive Publishers**

Along with a selection of the world's top elearning publishers, OpenSesame also offers our customers courses that are exclusively available through OpenSesame, like courses from OpenMind, Management Pocketbooks, Ideas For Leaders, Everything Is on The Record, and more.

## The most comprehensive catalog available for **Safety & Compliance**

OpenSesame brings you over 5,000 safety and compliance courses from top publishers like UL EHS Sustainability, Vivid, Vubiz, Trial, Will Interactive and more. The course selection includes courses in 41 different languages.

## Our Marketplace Catalog

With access to over **26,000 courses** in our marketplace and over **19,000** in the OpenSesame Plus catalog, we cover a variety of content areas such as:

- Business skills
- Safety
- Compliance
- Industry-specific
- Technology and IT
- Certifications

# Seamless Embedded Integration

**Maximize  
your existing  
investment in  
your LMS!**

OpenSesame courses are compatible with any Learning Management System (LMS) so there's no need for additional software. Your learners and administrators will never be taken to another platform to complete courses.

Adding elearning courses to your catalog is simple.

Preview courses, read reviews, and research publisher information within your LMS before assigning them to your learners. Once selected, the new courses are added instantly into your AICC or SCORM compatible LMS.

**We do the work so you can focus on choosing the best courses for your employees. Integration is available with any LMS.**

OpenSesame customers currently receive our courses through 120 different learning management systems. Our proprietary course delivery technology means you will be able to add courses, assign, track and report results on an LMS your team and employees are familiar with. Your activity and your data will be in your chosen system of record.

With an easy to use experience, OpenSesame enables you to quickly find and deploy courses—and track course usage—all in one place. With flexible buying options, you'll be able to maximize your learning and development budget. Whether you need to provide a single course across your organization, or a full library to support business goals, OpenSesame makes it simple for an organizations like yours to be agile in a dynamic environment.

While other learning companies offer bundled courses for professional development, none offer a seamless integration with leading Learning Management Systems.

OpenSesame is the only real turn-key solution on the market. Other solutions require extensive and time-consuming data entry and may need technical resources/expertise to implement.

## Proprietary course **delivery technology**

Our patented delivery technology gives your learners a superior experience by building live, 24 hour product support into the course window. With many of our LMS partners, your OpenSesame content controls are embedded within your LMS, so bringing courses into your LMS for your learners is as easy as a couple of clicks.

## Patented AI technology to save you time and effort

Just like the “Recommended for you” section in other popular apps, We use AI to improve your search results, saving you time and suggesting other relevant content for your needs. Our platform is designed with machine learning to continually improve your search results, and our SMART Lists, use your preferences to make finding content you will love a faster experience.

**Curation tools you won't find anywhere else.**

# Customer Support

OpenSesame provides a multi-layered support team that acts as dedicated support employees for your organization. This team will consist of the following roles for your organization:

## Dedicated Customer Success Manager (CSM)

Your customer success manager supports the process to get you up and running with your initial set of elearning courses. CSM's are dedicated to support you by:

- Developing a strategy and plan to build the training programs your organization of the future needs
  - Curating the right courses for your diverse workforce
  - Ensure your learning systems are configured and tested for a successful launch and on an ongoing basis
- Help you improve your training program by increasing employee engagement and elearning utilization.

## Curation Support included

We do more than provide you with elearning courses. We help you curate from our 26,000+ course catalog to find the best fit courses for your learners and organization. With a broad variety of styles and formats, we can help you find the right course for your specific training needs.

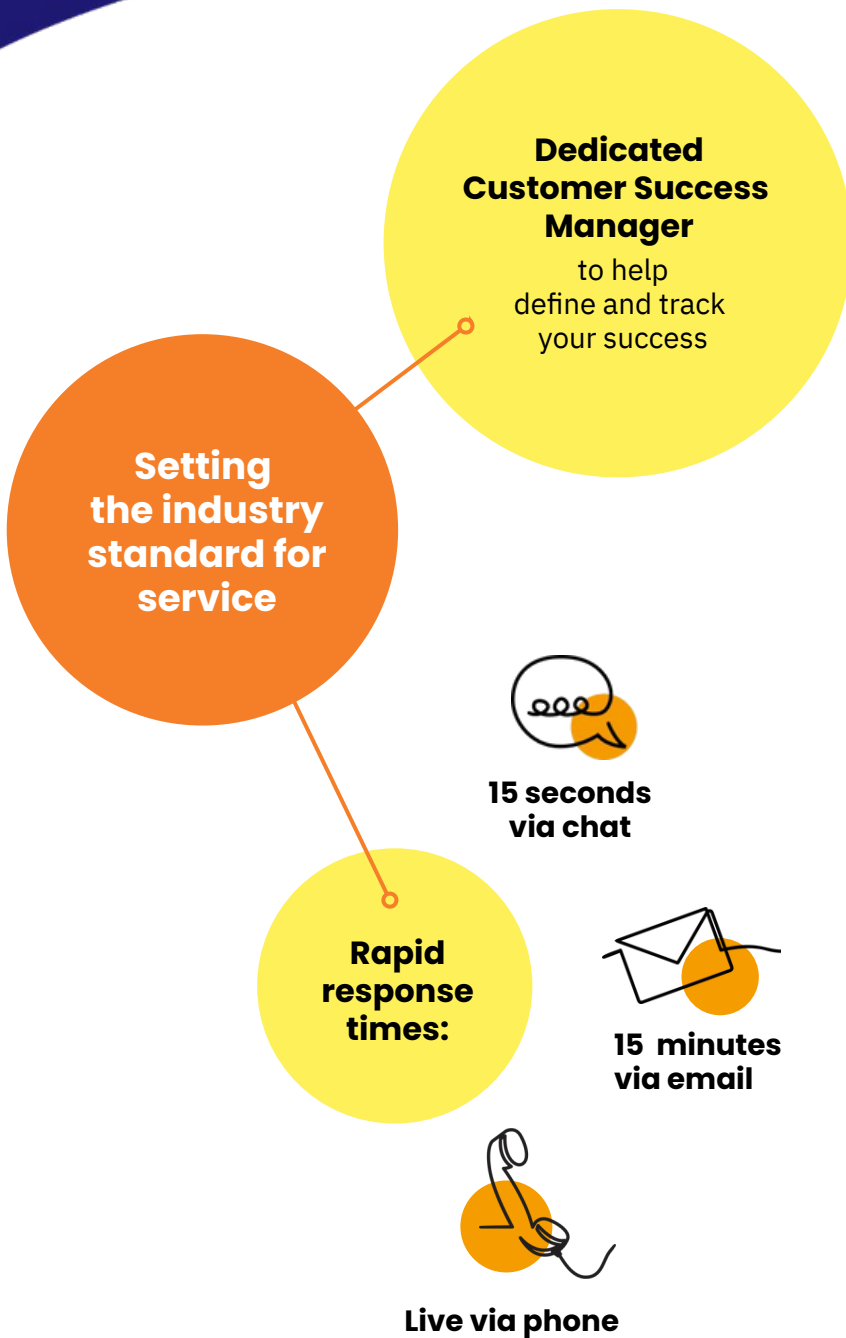

Leveraging our machine learning-driven curation tools, our curation experts will work with you to recommend courses for your initial launch and on an ongoing basis at no extra cost to you.

Searching, evaluating, and selecting the right courses for your training initiatives, core competencies, and learners can be overwhelming. OpenSesame's proprietary Curation Alignment Process is a key part of what we do for you.

We help many organizations throughout the education, private, and public sectors, but don't just take our word for it, [see how the City of Corpus Christi](#) advanced their training initiatives by utilizing our team of curation experts.

The OpenSesame curation team's focus will be on producing customized results for your organization, a process you won't find anywhere else, saving your learning & development team the time spent each week finding, evaluating, and curating courses. Returning invaluable (billable) working hours

# The Best Customer Support in the Industry

## Highest Technical Support Standards

In addition to our customer success team, our technical support team is on call via phone, email, or chat to answer any technical questions you or your learners have.

Our customers rave about how quickly and thoroughly we address and resolve their questions, whether it be for an LMS administrator or a learner taking a class, or integration with your LMS. We are here to help your organization learners and administrators with guaranteed response times during the week and additional support on the weekends.

**This gives your L&D team a resource, for your learners and LMS administrators to reach out to with technical questions OnDemand!**
